This Jective has come in the very face his educate to keep that issue at the from. They have been coust; it in their "campaign of oducation," having travelled the entire country over connoring other question, and recently they have been fore to impress upon the older members of the outersifed the necessity of keeping Bryantsm before the people. The other Democrats, however, seem to have somewhat cooled on the thome most of them in Congress having discovered that something also has absorbed the attention of the people since the

This change has been in resconse to the improved condition of the tar'ff o-glelation and Republican admirternion. They are no longer in dis-terest, and therefore are turning their backs on the party of calamity. The change is so pronounced that even the Washington Post has had to neknowl.
